

Just tell her or I'm showing her the recording.

No, please, don't-!

Tell her!

Stop!

Don't you understand what cornering him does?

Springtrap, it's okay... you're going to be fine.

Seriously, Springtrap...  
it's okay. I won't hate you.

I just want  
you to tell me.

Okay... okay, I'll tell you.

First, I need to tell you I always  
wanted to be a good friend to you...

But I've been so afraid of  
losing you, and it hurts so bad...

You know... even if  
it hurts really bad...

I still think you can do anything.

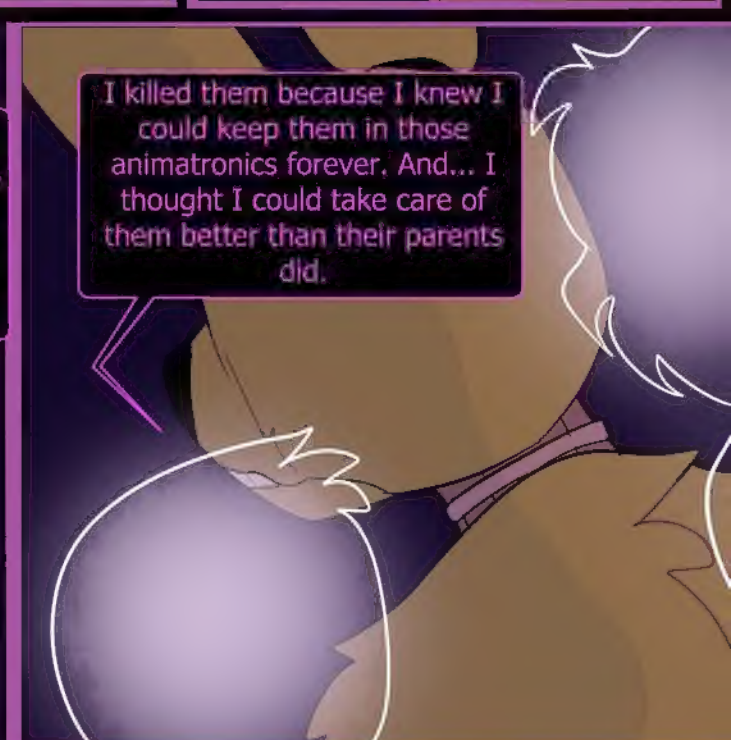

Even be a  
better person.

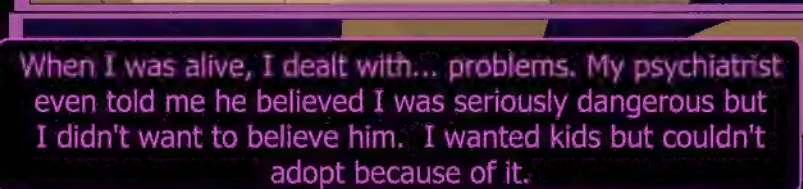

Okay... the truth is, I'm not a cute bunny. I'm... just a man, who's soul is trapped in here. And I'm a man who killed six children at Freddy Fazbear's, where I used to work.

I killed them because I knew I could keep them in those animatronics forever. And... I thought I could take care of them better than their parents did.

When I was alive, I dealt with... problems. My psychiatrist even told me he believed I was seriously dangerous but I didn't want to believe him. I wanted kids but couldn't adopt because of it.

It's not an excuse, though. It's not an excuse for how I treated you and how I took them away from their loving families.

So there. Now you know. And I realize this was stupid-pretending to be something I wasn't so... a kid could see me as their dad.

I'm so sorry.

Please, please forgive me-

Please don't touch me.

I...

You know what?  
I'll just leave.

Are you gonna be like... okay?

No, but that's not  
their problem- I've  
done enough. I  
should just go.

But... where will you go?
